

**40V Max Microwave**

**HEAVY DUTY BRUSHLESS**

MW001G

## 40V Max Microwave

The 40V Max XGT Microwave is compact and versatile with 8L of space for warming or defrosting food. The MW001G has 2 power output modes high: 500W and Low: 350W in an inverter design without a spinning table. This design is more energy efficient, evenly heating food without any hot or cold spots. It also has a highly durable design with tempered glass door and dust and water-resistant construction.

The MW001G can be powered by a single 40V Max battery with two terminals for increased runtime. When the MW001G is set at 500W the microwave will run up to 15mins with 2x 4.0Ah batteries (BL4040) and up to 35mins with 2x 8.0Ah Batteries (BL4080F)

Whether you're on the jobsite, at the beach, or the park the MW001G is a must have item for your next adventure.

# Product Overview

Dual stage power output

Dual battery terminals

8L capacity

LED display panel

USB output port

Portable design

Durable design

# Product Specifications

Capacity	8 Litres 255 x 241 x 120mm
Power output	High: 500W Low: 350W
Continuous runtime at 500W (Approx)	2x BL4040: 15mins 2x BL4080F: 35mins
USB Charging Port	Yes - 1 Port (2.4A)
Overall dimensions	318 x 343 x 338mm
Skin weight	8.9kg
Weight (with battery)	9.9kg (BL4040)
Voltage	40V Max

- **Dual stage power output** – 2 power output modes, High: 500W and Low: 350W in an inverter design without a spinning table.
- **8.0L Capacity** – internal dimensions 255 x 241 x 120mm more than sufficient for all popular size food containers.
- **USB Output port** – single output port at 2.4A for efficiently charging of mobile devices.
- **Durable design** – tempered glass door with dust resistant housing, minimising damage to the product. Additionally, a filter has been fitted to the air intake to reduce dust build up in the product.
- **Dual battery terminals** – powered by 40V Max XGT batteries, microwave will operate on one battery however there are dual terminals for increased runtime.
- **LED Display panel** – displays microwave power, preset heating time and battery charge indicator. Battery fuel gauge will blink should the product stop heating during use.
- **Portable design** – Easy to carry compact design without compromise of the internal cavity dimensions. Also includes large retractable carrying handle for easy transport.

## Power

Dual power output  
for heating and defrosting food

## Capacity

Sufficient for all popular size food containers

## Portability

Compact design without compromise of  
the internal cavity dimensions

## Durable Design

Tempered glass door with dust resistant  
housing

## Continuous Runtime

Battery cartridge (Full charged)	500W	350W
BL4025 x2	8 mins	14 mins
BL4040 x2	15 mins	21 mins
BL4050F x2	22 mins	30 mins
BL4080F x2	35 mins	48 mins

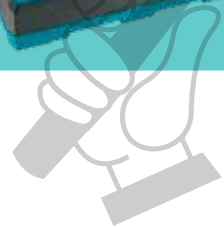

NOTE: Values are approximate and may differ depending on charging status, and usage condition.  
 NOTE: The estimated operating time with one battery is about half of the period when using two batteries.

## Standard Accessories

None

## Optional Accessories

	<p>BL4080F BL4050F BL4040 BL4025</p>	<p><b>Batteries</b> 8.0Ah - 40V Max 5.0Ah - 40V Max 4.0Ah - 40V Max 2.5Ah - 40V Max</p>

## Microwave Toastie Maker

**BONUS** microwave toastie maker supplied with each purchase of the MW001GZ-B

Simply make your favorite toasted sandwich and put it in the microwave for the perfect toasted sandwich.

We recommend putting the toastie maker in the microwave for 2.5mins flipping it over and then returning it to the microwave for a further 2.5 mins
