

18V Max Brushless Lawn Scarifier

LXT

DUV320

18V Max Brushless Lawn Scarifier

The DUV320 is an 18V LXT Brushless Lawn Scarifier designed to revitalize lawns by effectively removing layers of thatch and scarify the top layer of soil to allow for more nutrients, water and oxygen to penetrate the soil and improve overall lawn health throughout the year.

Powered by Makita's reliable 18V LXT battery platform, it delivers 0.41kW of output power combined with a 4 stage height adjustment, ensuring professional results with cordless convenience.

Featuring a brushless motor for consistent performance, the tool is equipped with 4 adjustable scarifying heights and a 320mm working width to suit various lawn conditions. Its 30L collection box, 3 stage folding handle design and washable cutting deck enhances comfort and ease of use during operation.

The ideal lightweight, low-maintenance alternative to petrol-powered models, the DUV320 offers a cleaner, quieter, and more efficient lawn care solution.

Product Overview

Quick release handles to quickly collapse for storage

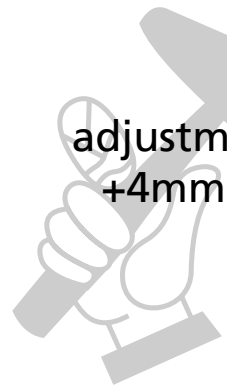

Electric brake

Soft grip

30L Grass catcher capacity

Depth adjustment from +4mm to -8mm

Washable cutting deck

МАГАЗИН МАСТЕРА
БАШ ПРОФЕССИОНАЛНИ РЕШЕНИЯ

Max output power	0.41kW
Working width	320mm
Working depth adjustment	+4 to -8mm (4 Stages)
No load speed	3,300rpm
Collection capacity	30L
Skin weight	9.7kg
Weight with battery	10.4kg (BL1860B)
Voltage	18V Max

- **18V Max Brushless Motor** – delivers a massive 0.41kW Max output power.
- **Automatic Battery Switching** – once 1st battery is depleted the unit automatically switches to the 2nd battery.
- **Electric brake** – enhances safety and control to prevent injury and unnecessary wear
- **Grass Catcher** – 30L capacity for disposal of removed clippings & material.
- **4 Stage Height Adjustment** – allows the user to quickly change operating height in 1mm increments from +4 to -8mm.
- **Quick Release Handle** – users can quickly adjust handle height for optimum ergonomics during use or for compact storage.
- **Washable cutting deck** - allows user to quickly and conveniently clean after each use

POWER

Increased speed of 3,300rpm for quick removal of thatched materials

VERSATILE

Incremental adjustment from +4mm to -8mm to suit different applications

STORAGE

Handle folds in three stages using levers and thumb screws for compact storage and easy transport

**Improves
aeration**

**Enhances
water
penetration**

**Promotes
root growth**

Working width
320mm

Two Types Of Blades

1. Scarifying Blade

For cutting through old roots to promote healthy lawns and for cutting through lawns and soils to improve the penetration of water and air

- Cutting through laterally growing grasses for better looking lawn
- Removing layers of lawn clippings, generated moss, etc.
- Cutting through runners and roots for healthy growth of lawn
- Loosening compacted hard surface layer of soil

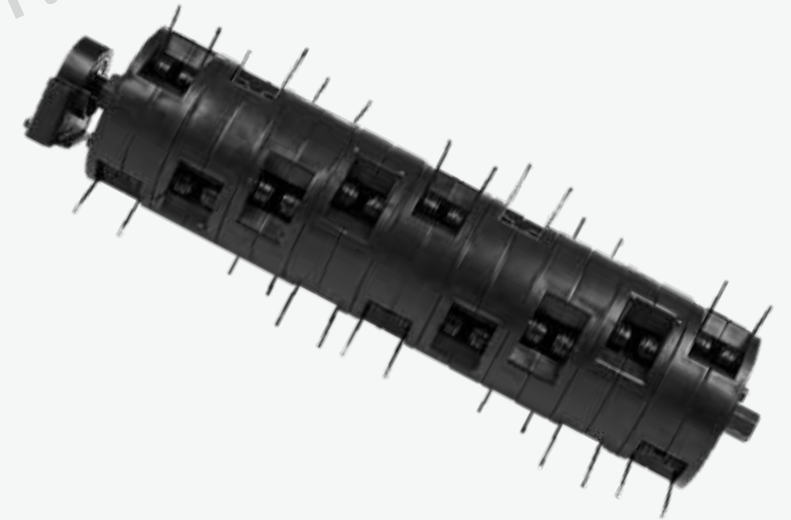

*Can also be used for thatching, but the amount of thatch it removes is smaller compared to the dethatching blade

Two Types Of Blades

2. Dethatching Blade (Optional)

For removing deposited lawn clippings, accumulated moss, etc, to allow more water, nutrients and sunlight to improve lawn health.

Our Range

	DUV320 - NEW	UV001GZ
		
Max output power	0.41kW	1.7kW
Working width	320mm	380mm
