

ArcView Camera

Camera unit for VideoFlex with mechanically adjustable camera head

This camera unit is suitable for VideoFlex G3 and G4. It has a wheel for mechanical movement of the camera head and is ideal for inspecting places that are difficult to access, such as wall cavities, shafts, brickwork or in motor vehicles. Thanks to a high-intensity object illumination with four high-performance LEDs, meaningful images can be taken even in poor conditions. The camera head and cable are waterproof.
