

VarioView Camera

Camera unit for VideoFlex with manual adjustable camera head

This camera unit can be used with VideoFlex G3 and G4 and is suitable for checking hard-to-reach places such as in cavities, shafts, masonry or motor vehicles. The camera head can pivot through 180° with manual adjustment in steps. Powerful LED object lighting ensures reliable image capture even under poor lighting conditions. The camera head and cable are both waterproof.

- Camera head with a manual, step by step adjustable pivot range of 180°
- For inspecting highly inaccessible locations such as cavities, shafts, masonry or in vehicles
- Waterproof camera head and cable
- Good object lighting due to high-performance LED
- Compatible with G3/G4
