

SensoLite G 210 Set

Laser receiver for green rotary lasers

This laser receiver is suitable for green rotary lasers and provides rapid, close and long-range alignment within a 200 metre range. The easy-to-read LC display on the front and clear acoustic signals provide the user with information on the height of the laser beam. The universal mount allows the device to be easily attached to levelling staffs. The integrated head magnet allows the device to be attached to metal surfaces.

- Suitable for green rotary lasers
- Fast alignment work in close and long range
- Easily fixed to measuring staff with universal holder
- Head magnet allow quick attachment to metallic surfaces
- Switchable, extremely loud Piezo buzzer sound

TECHNICAL SPECIFICATIONS
