

## VideoScope XL

**Compact inspection camera for visual inspections of areas which are difficult to access**

With the VideoScope XL, specific problems can be localised in places that are difficult to reach. The Video Inspector shows what is behind or in objects, walls, pipes, cables etc., even under very poor lighting conditions. The small, waterproof camera head allows a variety of applications. The image always remains clearly discernible on the monitor through rotation and mirroring.

- Easy problem localisation behind or in objects, walls, pipes, cavities
- Small camera head, ideal for places that are hard to reach
- Clear images even under the worst conditions
- Waterproof camera head and cable for use in sanitary areas
- Image clearly discernible through rotation and mirroring
- Easy-to-read display

### TECHNICAL SPECIFICATIONS
