### HIGHLIGHTS

#### AWS DUST EXTRACTION

Enables wireless dust extraction via AWS compatibility for efficient jobsite clean up when connected to an AWS compatible tool

#### SUCTION POWER

Powerful suction for faster, more efficient cleaning—strong enough to lift three 500ml bottles. (Image for demonstration only. Do not use to lift objects.)

#### AWS CONNECTION

Compatible with AWS for wireless activation, suction starts automatically with your tool.

#### AIRFLOW CONTROL

Features variable suction control, main power switch, battery fuel gauge, and a suction force adjustment knob.

### FEATURES

**POWERFUL SUCTION:** Maximum suction power of 165W, representing a 230% increase compared to the DVC750's 50W maximum.

**WET AND DRY CAPABILITY:** Efficiently handles both wet and dry messes, ensuring versatile cleaning applications.

**HEPA FILTER:** Equipped with a HEPA filter for superior dust and allergen capture.

**SELF CLEANING SYSTEM:** Features a self-cleaning filtration system (with pre-filter and damper only) to maintain optimal performance.

**COMPACT DESIGN:** Maintains a compact profile for easy maneuverability and storage.

**AWS CONNECTION:** Compatibility with the Auto-start Wireless System (AWS) allows the user to automatically run the cleaner in sync with the tool's switch operation.
