Router

## PRO GOF 20-12

Smooth routing with high working efficiency

### The most important data

|                             |                     |
|-----------------------------|---------------------|
| Rated input power           | 2,000 W             |
| No-load speed               | 10,000 – 25,000 rpm |
| Compatible collet diameters | 1/2", ...           |

**Order number** 0 601 627 220

## Technical data

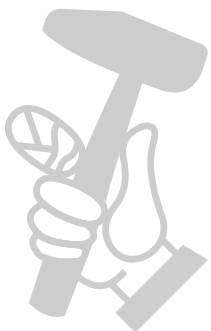

### Additional data

|                             |                         |
|-----------------------------|-------------------------|
| Rated input power           | 2000 W                  |
| No-load speed               | 10,000 – 25,000 rpm     |
| Compatible collet diameters | 1/2", 1/4", 8 mm, 12 mm |
| Voltage, electrical         | 230 V                   |
| Fine adjustment             | 16 mm                   |
| Weight                      | 6.3 kg                  |

## Noise/vibration information

### Routing edges

|                                |                      |
|--------------------------------|----------------------|
| Vibration emission value $a_h$ | 4 m/s <sup>2</sup>   |
| Uncertainty K                  | 1.5 m/s <sup>2</sup> |

Power tools for trade & industry

## Advantages:

- High routing efficiency thanks to 2000 W input power
- Stable cutting speed, thanks to the constant speed function
- Stepless and precise setup thanks to its after-lock micro depth adjustment mechanism
- Smoother operation with a longer contact surface of up to 355 mm thanks to the extendable guide plate
