- Suitable for: professional plumbers, pipefitters, and industrial maintenance technicians
- Chain vise mechanism ensures secure and stable cutting of large-diameter pipes up to 220 mm
- Spring-assisted chain retention simplifies pipe setup and prevents chain drop during tightening
- Easy blade clamp replacement by loosening hex bolts without removing the shoe
- Can be converted into a standard reciprocating saw by installing the front grip and thin blade adapter
- Equipped with soft start, electric brake, and anti restart function for enhanced safety
