

NCVDDF

DUAL RANGE NON-CONTACT VOLTAGE DETECTOR WITH FLASHLIGHT

- Dual measurement range for better detection accuracy from 12–49V and 50–1000V, AC
- Designed for high-risk environments: CAT IV 1000 V safety rating
- Increased jobsite durability with a two metre fall protection
- Highly visible red indicator LED shows presence of voltage
- Additional audible indicator supports voltage detection through beeping sound
- Integrated flashlight for better visibility
- IP 54 rating for increased protection against dust and water ingress
- Pocket clip for easy storage
- Green light indicates tool is turned on
- Mode switch button

Article Number	4933500162
Battery type	2 x AAA
Drop protection (m)	2
Dual range	No
Integrated flashlight	Yes
IP protection class	54
Kit included	2 x AAA Batteries, No kitbox or bag supplied
Recommended ambient operating temperature (°C)	0 - 50
Safety rating	CAT IV 1000V
Supplied in	No kitbox or bag supplied
Temperature operating (°C)	0 - 50
