SmartCross-Laser GX

Compact green cross-line laser with excellent visibility and 1/4" thread - recycled material is used for sustainability

This cross-line laser projects a highly visible green laser cross for precise horizontal and vertical alignment of objects. It also offers a manual slope function for easy creation of gradients and a 1/4" thread for mounting on a tripod. The laser can also be used for outdoor applications and alignment work at long distances with the integrated hand-held receiver mode. The housing of the laser is made from a large proportion of recycled plastic and makes a valuable contribution to sustainability.

- Sustainable design: large proportion of the housing is made from recycled plastic
- Accurate horizontal and vertical alignment of objects
- Good visibility through green laser technology
- Easy alignment of slopes with manual tilt function
- Time-saving automatic alignment
- Integrated hand-held receiver mode for outdoor applications
- Visual signals indicate when the device is outside its self-levelling range
- Pendulum restraint for safe transport
