MXF CVHF-802
MX FUEL™ HIGH FREQUENCY CONCRETE VIBRATOR

The MX FUEL™ High Frequency Concrete Vibrator is the ideal solution when working on larger areas, delivering AC like performance without the hassle of laying cables or having the need for an AC socket on the job site

Consolidates up to 55 m^3 of concrete on 1x MXF XC608 battery

The push-button start delivers instant power, eliminating the repetitive motions of a pull start and reducing downtime, allowing you to get jobs done faster without sacrificing the power and run time you expect

The modular design makes it easy to remove the backpack harness with just one click for walls and columns

Whips in 2-, 5- and 10-meter length without sacrificing power

Heads in 44mm and 57mm diameter

The wireless remote gives you the ability to turn the machine on from up to 9 m away for more freedom when using long shafts

System attachments, heads and shafts are available separately

Building on the strengths of the FUEL™ technology, MX FUEL™ system reaches new levels of cordless performance. Focused on petrol, corded and pneumatic performance, these tools deliver without the hazards associated with emissions, noise, vibration, tripping hazards and the frustrations of complex maintenance

ONE-KEY™ tool tracking & security offers a free of charge cloud-based tracking network and inventory management platform for your tools. ONE-KEY™ also features a remote locking functionality

REDLITHIUM™
