

RESOLVES PROBLEMS

Drilling into reinforced concrete is no longer a hit and miss application, reinforcing bar being no obstacle for the Nemesis drill. Also perfect for use in the hardest of natural stone.

DRILLS MORE PRECISELY

Its unique symmetrical head geometry ensures precision drill holes. Perfect for critical anchor fixings and where spot drilling is required.

LASTS LONGER

The Nemesis will drill up to 50% more holes than normal rotary hammer drill bits.

Scan the QR code to watch the Nemesis video online.

Lateral support and the maximum possible area of the interface between the carbide and steel body provide the most secure bond to compensate for torsional forces.

The high-volume flute geometry ensures the optimum removal of drilling dust.

Centring tip facilitates spot drilling with pinpoint accuracy. One piece solid carbide head for optimum drilling performance.

All 16mm bits and above are a 3 piece carbide cutting tip.
