

**Makita**

# 12V Max Inflator

MP100D

**CXT**

# Product Objectives

- Designed to suit the needs of anyone inflating car, bike or ute tyres, sporting equipment or pool toys/floats.
- Develop a powerful inflator powered by 12V Max batteries with a lightweight durable design

# Product Overview

Digital Display Screen

Trigger Switch

LED Job Light

Main Switch

Auto-Stop Function

0.83mPa Max Air Pressure

# Product Specification Sheet

Max Air Pressure	0.83MPa (121psi)
Discharge Amount	At 0.7 MPa – 4L/min At 0.2 MPa – 10L/min
Duty Cycle	5min On/ 5min Off
Overall length	255mm
Weight (without battery)	1.3kg
Voltage	12V Max

- **Digital Display Screen** – high visibility display screen allows you to clearly see the air pressure selected, the added backlight makes it ideal for use at any time of the day or night
- **LED Job Light** – bright white LED illuminates the object being inflated enabling inflation in dark places or at night
- **Main Switch** – eliminates the risk of accidental inflation and prevents unexpected start-up during transportation
- **Trigger Switch** – one finger trigger switch allows the operator to comfortably operate the tool in a safe position
- **Auto-Stop Function** – automatically stops inflation at the selected air pressure
- **0.83MPa Max Air Pressure** – delivers 4L/min @ 0.7MPa | 10L/min @ 0.2 MPa

# Advantages

## Power

Max air pressure of 0.83MPa

## Versatility

Ability to inflate car tyres, pool floats and sporting equipment

## Convenience

Backlit display screen allows use during the day or night

## Compact

1.3kg on a 4.0Ah battery making it ideal for transportation

# Our Range

**NEW – Makita  
MP100DZ**

<b>Max. air pressure</b>	0.83MPa (121PSI)
<b>Discharge amount</b>	At 0.7 MPa – 4L/min At 0.2 MPa – 10L/min
<b>Duty Cycle</b>	5min on / 5min off
<b>Overall Length</b>	255mm
<b>Weight (without battery)</b>	1.3kg
<b>Auto-Stop Function</b>	Yes
<b>Voltage</b>	12V Max
