

SuperPlane-Laser 3G Pro

Three-dimensional laser
with three green 360° laser circles
and magnetic clamp and wall bracket

Rev.0317

- **Horizontal and vertical 360 degree laser lines** with **green DLD laser technology** achieve **high quality** for a sharp, distinct and therefore clearly visible line image.

- Straight forward plumb function using laser crosses

- **Automatic Level:** automatic alignment by virtue of a magnetic pendulum system.

- **Tilt mode is an additional feature** that permits gradients to be laid out.

- With the **magnetic clamp and wall bracket CrossGrip** the device can be used as a standalone unit, in a combination as well as in horizontal and vertical position.

- Ideal for mounting horizontally and vertically on **drywall construction profiles**.

- Optimised for **work close to the ceiling**

- **Out-Of-Level:** is indicated by optical signals when the unit is outside its self-levelling range.

- **RX-Ready:** The integrated hand receiver mode detects the laser lines with the optional laser receiver RX up to a max. of 40 m radius – ideal for all interior and exterior applications.

- **Mains operation** possible using additional mains unit.

- Long-lasting, powerful **rechargeable lithium-ion battery**

- **Transport lock:** A pendulum lock protects unit during transport.
