Product Overview

High cutting efficiency

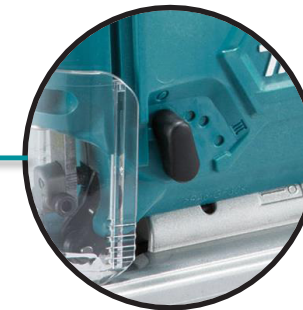

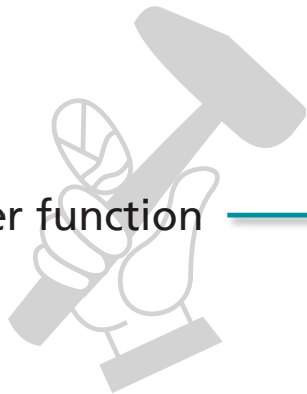

Ergonomic design

45° bevel cutting

Connectable to dust extraction

Blower function

3 Cut settings

- **High cutting efficiency** – compact 12V MAX motor provides 2,900spm allowing for fast and clean cutting
- **45° bevel cutting** – adjusting the base plate user is able to make 45° bevel cuts left and right with a positive stop at 90°
- **Blower function** – motor exhaust has been positioned in order to blow the cut line free from dust making a clean cutting line
- **Ergonomic design** – handle has been ergonomically designed to provide maximum comfort will reducing fatigue when using the tool for prolonged periods of time
- **Connectable to dust extraction** – extraction hose can be connected directly to the rear housing of the unit for a cleaner worksite
- **3 cut settings** – orbital action of the jigsaw blade can be changed from smooth straight cutting to aggressive fast cutting depending on the material and finish required

Max. capacity	Aluminium 4:mm Mild steel: 2mm Wood: 65mm
Strokes per minute	0-2,900spm
Shank type	B-type
Stroke length	18mm
Weight	1.7kg

Performance

High performance with high efficiency cutting speed

Compact

Compact eXtreme Technology
Compact and lightweight range of tools

Control

3 cut settings for increased control ideal for making the perfect cut

Innovation

New 12V Max platform, featuring the newly developed slide Li-ion battery

Standard Equipment		
	B-10	1PC JIGSAW Blade 76mm – 9tpi
	-	Hex wrench

Optional Equipment		
	-	Wood Blades
	-	Metal Blades
	-	Demolition Blades
  	-	Specialized Blades Stainless Steel / Fibreglass Hebel / Fibre Cement Rubber / Foam Fibreglass
