

Green cross-line laser for height transmission and alignment

- Green laser technology
- Extremely bright green laser cross at front in the **DLD design achieves high-quality lines** as well as a clean and clear and therefore easily visible line image.
- Ideal for aligning tiles, wallpaper, pictures, etc.
- Automatic Level: automatic alignment by virtue of a magnetic pendulum system.
- Additional slope mode to align angled surfaces.
- Out-Of-Level: is indicated by optical signals when the unit is outside its self-levelling range.
- Transport Lock: a pendelum lock protects unit during transport.
- Green laser technology with 0°C...50°C temperature range.
