LXT 18Vx2 18V + 18V 36V

The PDC1200 provides longer tool runtimes allowing you to get more work done throughout your working day. Coming in kits with an LXT 18Vx2 adaptor or 40V Max adaptor, the PDC1200 is compatible across three platforms: LXT 18Vx2, XGT 40V Max & Direct Connection, maximizing the range of work you can undertake.

Featuring an energy capacity of 1,206Wh, the PDC1200 provides runtimes equivalent to 11x 18V 6.0Ah batteries. You can charge up overnight using the AC charger (6hr charge time) so you're ready to go for a full day of uninterrupted power.

The comfortable harness can be adjusted to suit a variety of heights but can also be removed from the unit to provide stationary power meaning you can work all day with minimal fatigue.

Product Specification Sheet

DIRECT CONNECTION

LXT 18Vx2 18V + 18V 36V

- **High capacity** – provides energy capacity of 1,206Wh allowing for significantly longer tool runtimes
- **A/C charger** – charges through the use of an A/C charging adaptor, with a charge time of 6 hours
- **Versatile backpack harness**– the comfortable backpack harness allows for use for long periods of time with minimal user fatigue. The harness is able to be adjusted to suit a variety of heights and can be detached from the unit for use as a stationary power pack.
- **4 LED battery indicator** – located on the outside of the unit to allow the user to see how much battery life is left.
- **Compatible across 3 platforms** – tools are able to power 18Vx2 LXT tools through the 18Vx2 adaptor, XGT tools through the 40V Max adaptor and through direct connection to tools that feature a connection cable.

Energy Capacity		1,206Wh
Battery Capacity		33.5Ah
Charge Time		360 mins (DC4001)
Battery Fuel Gauge		Yes
Weight	Unit	8.8kg
	With Harness	10.3kg
	Adaptors	18Vx2: 0.8kg 40V Max: 0.53kg
Overall Length		369mm
Voltage		18Vx2 / 40V Max

Advantages

Performance

Compatible across 3 platforms

Runtime

Provides up to 1,206Wh

Convenience

Ability to check remaining battery life from outside the backpack

Comfort

Adjustable backpack harness provides maximum comfort for all users

Advantages

Compatible Across 3 Platforms

The PDC1200 provides maximum versatility as it can power the widest range of Makita tools. The PDC1200 is able to provide power to LXT 18Vx2 tools through the 18Vx2 adaptor, XGT tools through the 40V Max adaptor and through direct connection to tools that feature a connection cable.

Extended Runtime

The PDC1200 will provide the runtime to work all day long, providing 1,200Wh. In comparison, PDC01 with 4 6.0Ah batteries provides 432Wh and 2x BL1860B will provide 216Wh. The PDC1200 provides up to 5.6 times more runtime than 18Vx2 tools used with 2x 6.0Ah batteries.

1,206Wh

PDC1200 provides:

432Wh

2.8 times more runtime

216Wh

5.6 times more runtime

Direct Connection Compatibility

Makita provides a range of high-powered tools that feature a direct connection cord and are powered by either the PDC1200: Portable Power Supply or PDC01: Battery Backpack Adaptor. At present we have the UR101C and UR201C – Brushless Line Trimmers available, with more direct connection tools coming in 2021.
