lumens
Spot + Wide
Mode

The UB18DA cordless searchlight has four output modes: the Wide and Wide(Eco) modes provide a broader spread of light, while the Spot mode illuminates to greater distances. The Spot+Wide mode combines both spot and flood beams and delivers 2,500 lumens for illumination across far and wide distances. Additionally, out of all the modes, the Wide(Eco) mode offers the longest runtime of about 22 hours.

Continuous Runtime*² [with a BSL1860 battery]

Spot + Wide Mode	Spot Mode	Wide Mode	Wide (Eco) Mode
Approx. 3 hr	Approx. 6 hr	Approx. 5.8 hr	Approx. 22 hr

Batteries

Specifications

Model	UB 18DA
Battery Voltage	14.4V and 18V
LED Light Bulbs	18W x 1 / 3W x 8
Brightness	2,500 lumens (max)
Dimensions (W x L x H)	203mm x 280mm x 204mm
Weight	1.85kg (without battery)

IP54 Water and Dust Resistant (IEC Standard)

Our IP54-compliant products are designed to withstand the effects of dust and splashing water, but the risk of malfunction should not be ignored. Do not use or leave the searchlight in locations where it is subject to excessive amounts of dust or to rainwater or where it is submerged in water.

*1 "Longer-lasting" refers to the Wide(Eco) mode only.

*2 "Continuous runtime" refers to the operating time with a fully charged battery. The values are shown for reference purposes only, as the actual continuous runtime may vary depending on the frequency of battery usage, battery capacity, ambient temperature, and other factors.

*3 The unit should be additionally secured with a cord or string.
