Laserliner®
CenterScanner Plus

Professional drill guide for reliable determination of entry and exit points of wall and ceiling drill holes

– Comprising a transmitter and receiver, the system facilitates **straightforward alignment of the drill channel** up to a wall thickness of 150 cm

– Accurate detection of the entry and exit positions by means of **clearly visible LED indicators** and **acoustic signals**

– Easily accessible **marking tools** in the transmitter and receiver to determine the entry and exit positions

– **Ability to calculate the required drilling depth** up to 200 cm with the integrated LCD display

– Transmitter TX with **integrated metal and voltage detection** to avoid drilling holes in the wrong place

– **Visual and acoustic warning** when foreign objects are detected

TECHNICAL DATA	
CENTERSCANNER PLUS RECV	
INDICATORS 13 LEDs, acoustic warning signal	
LED DISPLAY 3 x 7 segment	
MEASURING DEPTH Position detection: 2–150 cm wall thickness Depth display: 2–200 cm drilling depth	
ACCURACY typical 3% of measuring depth	
OPERATING TIME approx. 20h	
OPERATING CONDITIONS -30°C … 40°C, humidity < 80%, no condensation	
STORAGE CONDITIONS -40°C … 60°C, humidity < 80%, no condensation	
POWER SUPPLY 3 x 1,5 V alkaline batteries (type AAA)	
DIMENSIONS (W x H x D) 75 x 172 x 28 mm	
WEIGHT (incl. batteries) 210 g	
CENTERSCANNER PLUS TX	
INDICATORS 11 LEDs, acoustic warning signal	
OPERATING TIME approx. 12h	
OPERATING CONDITIONS -30°C … 40°C, humidity < 80%, no condensation	
STORAGE CONDITIONS -40°C … 60°C, humidity < 80%, no condensation	
POWER SUPPLY 3 x 1,5 V alkaline batteries (type AAA)	
DIMENSIONS (W x H x D) 75 x 172 x 28 mm	
WEIGHT (incl. batteries) 200 g	

Clearly visible LED indicators

Easily accessible marking aids

Integrated LCD display

CenterScanner Plus
inclusive carrying case
+ CenterScanner Plus RECV
+ CenterScanner Plus TX
+ Batteries
+ Adhesive kit
+ Sliding pads (4x)

Packing dimension (W x H x D)
