LaserRange-Master Gi5

Laser distance meter – with green DLD laser technology

Rev18W39

- Green laser technology
- **DLD technology** creates an extremely bright, green laser point.
- **Point-precise measuring with laser to determine lengths exactly**
- **The area and volume functions** permit the acquisition of room sizes, for example to calculate material quantities
- **Min/Max continuous measurement**
- **Digital bubble level** is used to align the measuring device
- **Tilt sensor calibration**
- **360° inclination sensor** for determining the horizontal and vertical distance
- Measured value memory for 50 entries
- **2 selectable measurement reference points:** front and rear
- Illuminated 4-line **colour LCD**
- Sturdy, ergonomically designed, **rubberised** casing
