

40V Max Brushless 235mm Circular Saw

HEAVY DUTY BRUSHLESS

HS009G

Product Statement

40V Max Brushless 235mm Circular Saw

The 40V Max XGT Brushless 235mm (9-1/4") Circular Saw provides cordless convenience, while taking on high-demand applications. The Makita-built brushless motor delivers 4,000 RPM for high-speed cutting performance, with a large cutting capacity of 85mm at 90-degrees.

The convenient guide rail compatible base interacts with optional guide rails to provide dead-on, straight or bevel cutting without the need for an adapter. Constant speed control maintains blade speed under load for optimum cutting performance while the saw is also equipped with Makita's Extreme Protection Technology (XPT) improving the tool's operation in harsh conditions.

For increased safety the saw features an electric brake, soft start and anti-restart and for added convenience, the saw also features Auto-Start Wireless System (AWS) for wireless power-on and power-off communication between the equipped tool and compatible dust extractor.

Product Overview

Product Specifications

Max. cutting capacities at 0°	85mm
Max. cutting capacities at 45°	61mm
Max. cutting capacities at max bevel	44mm
Bevel capacity	-1°- 60°
Blade diameter	235mm (9-1/4")
Bore diameter	25.4mm
No load speed	4,000rpm
Overall length	413mm
Skin Weight	4.4kg
Weight (with battery)	5.4kg (BL4040)
Voltage	40V Max
Compatible batteries	BL4025 / BL4040 / BL4050F* *Recommended

*AWS receiver sold separately

- **High Power Output** – the high power 40Vmax XGT Li-Ion battery allows for continuous operation in heavy-duty applications. With cutting speeds faster than the 1,600W AC equivalent.
- **Lightweight Design** – battery relocation has significantly improved the overall balance creating a lightweight design that is extremely comfortable to use.
- **Soft Start** – blade starts slowly then rapidly accelerates to maximum speed to reduce the initial start up shock.
- **Auto-Start Wireless System (AWS)*** – compatible with AWS the HS009G can be paired with a compatible vacuum for on demand dust extraction. AWS uses Bluetooth to wirelessly power on and off the extraction unit using the tools trigger.
- **Constant Speed Control** – constant speed control maintains blade speed under load for optimum cutting performance
- **Guide Rail Compatible** – guide rail compatible saw base adapts with optional guide rails to provide perfectly straight cut.
- **Positive Bevel Stop** – allows for fast and accurate bevel adjustment to common bevel angles. With a maximum bevel capacity of -1-60°, positive stops at 22.5° and 45°.
- **Electric Brake** – maximises productivity and user safety by rapidly slowing the wheel rotation after the switch has been released.

Advantages

HEAVY DUTY BRUSHLESS

Heavy Duty

Heavy duty power with rapid cutting speeds up to 4,000rpm

Safety

Safety protection with electric brake and soft start for user safety

Innovation

Constant Speed Control
Maintains blade speed under load

Compatibility

Optional compatible guide rail to ensure perfect cuts every time

Accessories

Standard Accessories		
	E-01943	Wood Efficut Blade 235mm x 24T
	162687-7	Sub Base
	783204-6	6mm Hex Wrench
	821866-3	Plastic Case

Optional Accessories		
	Efficut Saw Blades	Link to Accessories Website
	BlueMak Saw Blades	Link to Accessories Website
	M Force Saw Blades	Link to Accessories Website
	Multi-Purpose Saw Blades	Link to Accessories Website
	Knot & Nail Saw Blades	Link to Accessories Website
	Aluminium Saw Blades	Link to Accessories Website
	AWS Bluetooth Receiver	198901-5
